

CRA/LA: Mid City Crenshaw Boulevard

Date: Saturday, January 26, 2008; 10 AM to Noon

Mid City Crenshaw Boulevard Visioning and Implementation Study Community Workshop

You're invited to attend the first in a series of three workshops to help develop a vision and concept plan for a key segment of Crenshaw Blvd. from the I-10 freeway to Martin Luther King Boulevard.

Topics for discussion include:

- Appropriate land uses to support 21st century economic opportunities;
- Types of residential products to accommodate the full range of current and future urban households;
- Sidewalk and streetscape improvements that will enhance community identity and support emerging retail; and,
- Traffic and street improvements aimed at balancing parking, traffic and pedestrian demands.

Our team will share examples of successful projects elsewhere in the city and country, but most importantly, we want to hear your ideas. Information gathered at this meeting will be used to develop a vision plan and implementation program for this critical segment of Crenshaw Boulevard to help ensure that future planning efforts accurately reflect community needs.

Remember, the best plans include many voices. Please plan on joining us and letting us hear from you!

West Angeles Church, North Campus, Crystal Room

3045 South Crenshaw Boulevard, Los Angeles

Metro service available on Route 210 or 710

Free parking available across the street
