

# Mid-City Crenshaw Visioning and Implementation Study Community Workshop #3

You are invited to attend the third in a series of three workshops to help develop a vision and concept plan for a key segment of Crenshaw Boulevard from the I-10 freeway to Martin Luther King, Jr. Boulevard.

## **Topics for discussion include:**

- Appropriate land uses to support 21<sup>st</sup> Century economic opportunities;
- Types of residential products to accommodate the full range of current and future urban households;
- Sidewalk and streetscape improvements that will enhance community identity and support emerging retail; and
- Street improvements aimed at balancing parking, traffic and pedestrian demands.

Based upon community input and comments received at previous Community Workshops, our team plans to share a range of ideas that we think could be appropriate for Crenshaw Boulevard. We would like to hear what you think of these concepts. Information gathered at these workshops will be used to develop a vision plan and implementation program.

**Remember, the best plans include many voices.  
Please join us and let us hear from you!**

Saturday, April 26, 2008; 10 AM to Noon

**West Angeles Church, North Campus, Crystal Room**  
3045 South Crenshaw Boulevard, Los Angeles
